

PVC Insulation Tape Series

KLS8-01151 PVC COMMON Series

PVC Electrical Tape Composed Of Soft Film And Rubber Based Psa Is Charaterized By Excellent Insulation, Good Flame Retardant, Resistance To Voltage And Lowtemperature, It Is Used For Insulation Protection Of Electrical Wires And Harnesstape In Automobile Industry. Pet Tape (Polyester Tape) Composed Of Pet Film And Solvent Based Psa Is Charaterized By Good Tensile Strength And Resistance To High Temperature. It Is Used For Various Packing And Wrapping Of Transformer Coils.

VIII

Technical Parameters

Back- ing	Code	Adhesive	Backing Thickness	Total Thickness	Adhesion	Tensile	Elon- gation	Voltage Break	Certi- ficate	Features Application
			mm	mm	N/cm	N/cm	%	KV		
PVC	110	Rubber based	0.1	0.115	1.6	16	160	6.5	CE	Matte or glossy film general purpose electrcal tape with good adhesion and flexibility, designed for wrapping of automobile wire.
	111	Rubber based	0.11	0.125	1.6	18	160	6.5	CE	
	113	Rubber based	0.13	0.145	1.6	18	160	6.8	CE	
	116	Rubber based	0.16	0.175	1.6	28	160	8	CE	
	117	Rubber based	0.17	0.185	1.6	28	160	8	CE	
	118	Rubber based	0.18	0.195	1.6	28	160	8	CE
